CASH DISCOUNT PROGRAM

Triangle Community Physicians understands the financial hardship placed on persons without health insurance. In an effort to cut your medical costs, we have reevaluated our cash discount program and made some changes.

This program is for all UNINSURED patients. It will provide an automatic 20% discount for your office visit. Immunizations are excluded from this program. In addition, if you pay at the time of service, which we require, we will also give an additional 20% discount if your account is in good standing and you have no prior balance. This discount ONLY applies to the office visit.

This does not apply to immunizations or services performed at other labs, X-ray/radiology studies done at the hospital, or other facility or other physician fees.

The entire balance for the office visit must be paid in full at the time of service to take full advantage of this cash discount program.

Frequently asked Questions:

I will pay for half the office visit today and half in 1 week when I get paid. Do I qualify?

No. This program applies only to paid-in-full balances at the time of service. You will receive the automatic 20% discount but no additional 20% discount.

I have insurance, but I do not want you to file with my insurance, will I qualify?

No. Our contracts with the insurance companies do not permit cash collection for services.

I have Medicare. Do I qualify?

No. Medicare is considered insurance and does not qualify you for this program.

I have a balance of \$300 and was seen today. If I pay off all of it plus today's visit, will I get the discount?

Yes and no. The \$300 prior balance is due in full without the discount, but today's visit is eligible if the \$300 is paid at the same time.

I had an X-ray that was ordered during my office visit. Do I have to pay for that at the time of service?

We do not charge for tests performed in other facilities. You will need to discuss your payment options with someone at that facility.
